

The Pennsylvania Department of Health currently requires that all children in licenses Child Care Centers have had a flu shot within 1 year in addition to the other vaccines required for your child's age. If your child has not had a flu shot this year, you must complete the form below to indicate future plans for a flu shot OR a family exemption. Please note, HeartPrints will only accept an exemption letter for the flu vaccine. Children must be up to date on all other immunizations recommended by the CDC to attend HeartPrints.
